

Curriculum Vitae- Can Öcek

Management & Technology Student at the
Technical University of Munich

Personal Data

Full Name

Can Öcek

Contact Data

Weidener Straße 18

81737 Munich, Bayern

+49 172 5472610

canocek@gmail.com

Birth Date/Place

04.11.2002; Izmir, Turkey

Citizenship

Turkish

Education

10/2023 - ongoing

Technical University of Munich, Bachelor of
Science in Management & Technology
(Betriebswirtschaftslehre - BWL)

10/2021 – 9/2023

Technical University of Munich, Bachelor of
Science in Informatics

09/2018 – 06/2021

Munich International School (MIS), Grades 10-
12

09/2009 – 06/2018

Izmir Gelisim Koleji, Grades 1-10

Projects/Achievements

12/2024 – 02/2025

Developed a top-down roguelike game using
libGDX to implement core functionalities.

08/2023 – 10/2023

Fully planned, arranged the music of, recorded
and produced the audio, filmed the video, did
editing and color grading of Youtube videos. An
example: <https://youtu.be/EWGPLWCokmI>

06/2022 – 08/2022

Developed a mock database system and
application for a university. This consisted of
implementing the user interface and linking
each instance to the database with APIs. The
project was completed with a 5-person team
with organized sprints.

03/2020 – 11/2020

International Baccalaureate Diploma Program
Extended Essay in Computer Science: "The
Runtime Difference between the A* and
Dijkstra's Pathfinding Algorithms in Solving
Maze Problems"

09/2017 – 05/2018

Design of a Microscope using Liquid Lenses
Adjustable by Magnetic Field

1st Place in Physics at the 29th MEF National High School Research Project Competition (Turkey's second major science competition); Regional stage participant in the TÜBİTAK High School Project Competition (Turkey's most prestigious competition) in the design category.

The project consisted of making liquid lenses that could be adjusted by a magnetic field and assembling a microscope using said lenses. In the project, a circuit controlled by an Arduino board was used to send current to the electromagnet in the setup, which changed the magnification rates of the lenses by moving another magnet to act as a piston.

Internships and Other Experiences

8/2020

Assistant in the Turkish Human Rights Foundation's study "The Media Reaction to the Anti-War Statements of the Turkish Doctors Association", part of media content analysis by scanning keywords

06/2019

3 weeks of work experience in the Maker's Space of Munich International School. Usage of Adobe Illustrator to operate a laser cutting machine, general maintenance, and teacher's assistant

Skills

Language Skills

Turkish (Native)
English (Highly Proficient)
German (B2)

Computer Skills

Programming Languages C#, Python, Java, R, Swift
SQL
Davinci Resolve
FL Studio, Reaper
Unity Game Engine
Adobe Illustrator and Photoshop
Fusion 360
Microsoft Office Applications

Interests

Playing guitar (classical, electric, bass, acoustic), vocals, composing and music production, photography/filmography and video editing, programming, remote controlled model plane building, 3D modelling, 3D printing, Strength training, Gardening, History/Mythology
